

MEMORANDUM

TO: Examiner Jon P. Weber  
Art Unit 1808

FROM: Stephen E. Reiter 

DATE: August 10, 1995

RE: United States Patent Application No. 08/244,857  
Entitled: MEANS FOR THE MODULATION OF PROCESSES  
MEDIATED BY RETINOIC RECEPTORS AND  
COMPOUNDS USEFUL THEREFOR  
Inventors: Evans et al.  
Filed: June 14, 1994  
Docket No.: P41 9755

=====

Enclosed are informal copies of documents which were hand delivered to the Group 1800 receptionist on Friday, August 11, 1995. These are provided for your convenience and as advance indication of the supplemental information provided for the file.

You will notice that the declaration is provided in unexecuted form, as the declarant is travelling and is currently unavailable to execute the document. A fully executed copy of the declaration will be provided to you by facsimile as soon as the declarant and the document can be brought together in the same place.
